Yao-shi Takamiminami Primary School, Principal : Seiji Imaoka

Response to the earthquake and Severe weather warning issued

1 . When weather warning issued

① If the weather warning (such as Storm, heavy rain, flood, storm snow, heavy snow)”
or in Takami Junior High School area, "Evacuation information (Warning level
3: preparation for evacuation / Evacuation for the elderly, Warning level 4: evacuation
direction) is issued...

If issued at 7:00am

(If it was issued, after seven a.m., on the way to school, the direction is the same.)

Please stay at home instead of going to school.

(If evacuation information has been issued, please follow the instructions to evacuate.)

If it is canceled before 11am.

→ Prepare for afternoon classes and come to the school before 1:00pm.

(School lunch is canceled.)

If it is not canceled at 11:00am. → School will be closed.

However, if it is determined that there is a danger at home due to local conditions, give top priority to the safety of your child and refrain from going to school. In that case, please be sure to contact the school.

② Weather warnings (storms, heavy rains, floods, storms, heavy snow) are issued during learning at school.

Basically, children will promptly leave the school (Primary school children will leave as a group). Depending on the situation, we may not let children leave and stay at the school for safety reasons.

2 . About special warnings

① “Valid level 5 equivalent: Emergency safety assurance or special warning” issued in Yao City

School will be **temporarily closed.**

After the warning and evacuation instructions in Takami Junior High School area are lifted, we will confirm the safety of school routes and school area and notify you of the restart date and time.

② “**Valid level 5 equivalent: Emergency safety assurance or special warning**” is issued while learning at school

It will be in **school standby** until safety is secured. After the warning is canceled, check the damage situation in the school, the surrounding area and make sure the safety before leaving school. At the Primary school, we will hand children over to parents, so please come to school as soon as possible.

3. When the Earthquake occurs

① When an earthquake with a seismic intensity of **more than level 5** occurs in Yao-shi or adjacent cities (Osaka-shi Hirano-ku, Higashi Osaka--shi, Kashiwara-shi, Fujiidera-shi, Matsubara-shi)

- **Before coming to school** → School will be closed temporarily.

- **It occurs on a day off**

→ Next day of the school will be closed temporarily.

※ Make sure the school can be safely reopened and will contact parents when it is restored.

- **It occurs while coming to school**

→ Temporarily evacuate to a safe place, then evacuate to school or home.

- **It occurs while learning at school**

→ Let all children evacuate to a safe place. Check the damage situation of the school and its surroundings, and confirm the safety before leaving school. At the Primary school, we will hand children over to parents, so please come to school as soon as possible.

② When an earthquake with a seismic intensity of **less than level 4** occurs in Yao-shi or adjacent cities (Osaka-shi Hirano-ku, Higashi Osaka--shi, Kashiwara-shi, Fujiidera-shi, Matsubara-shi)

School is opened as usual. If judged to be dangerous due to local conditions, in that case, your child's safety is the highest priority, let your child stay home. please be sure to contact the school.

※ This note is needed throughout the year. Please put it at a place that is easy to see at home.
